

Nieuwsbrief 2023/8

Exploring the future of green logistics

This year the [FIATA 2023 World Congress](#) is hosted under the title 'The Changing Climate of Logistics'. You can witness various stakeholders and international institutions and contribute to making logistics more sustainable.

One of the numerous speakers is [Christian Clauwers](#), an adventurer who has already circled the globe twice and has explored over 114 countries across all 7 continents. He sailed the five oceans and explored their islands, including some of the most remote on the planet, witnessed by few.

We promise an excellent [networking and growth opportunity](#) for delegates who join us in Brussels from 3-6 October!

Register for the full congress or choose one or more events via <https://fiata2023.com/>
