#### Digitalisation

#### *Lunch & Learn: Integration as the Missing Link Behind Digital Logistics*

On 21 April, FORWARD Belgium and The Beacon organised the **Lunch & Learn** event '*Integration as the Missing Link Behind Digital Logistics*'. The strong turnout confirmed just how relevant the topic remains.

Using **Secure Container Release (SCR)** as an example, the session demonstrated how fragmented, manual processes can evolve into a secure, streamlined digital workflow. Molenbergnatie, T-Mining and Integration.team highlighted the operational reality, the platform layer and the integration layer.

The session made it clear that **integration is not a technical detail**, but a strategic lever for scalability, security and efficient collaboration in an increasingly connected logistics chain.

The next Lunch & Learn will take place on **Tuesday 23 June**.
